4. In a brief discussion of some budgeting problems, Colonel Giller stated his unwillingness to consider major problems at the JFEC meetings without advanced agenda preparation and notification. He reminded also that he wishes to be informed regarding policy matters involving the Comptroller's or DCI's office, and further that no one office of the DD/R can unilaterally make DD/R policy in fiscal matters.

6. [] raised the problem of the DD/R signing off on requests for [] clearances for other Agency components. This has proved a time consuming and difficult task. [] cautioned against the proposal to transfer this problem to the Director of Security since he felt that security was a part of the over-all operational responsibility of the DD/R. It was agreed that [] would further study the problem and make specific recommendations.

7. [] gave a brief report on the space situation from which it appeared that relief may not be quite early enough to avoid some considerable inconvenience. He also called attention to the upsurge of security violations thus far this month within the total DD/R organization. It was recognized that our growing numbers and the influx of new people creates a situation conducive to weakened security. Colonel Giller urged that all new people be well indoctrinated and asked [] to initiate steps to improve procedures and develop keener security consciousness.
